

Warranty for Lenzing PROFILEN® sewing threads

Lenzing PROFILEN® sewing threads will not degrade nor be damaged by being exposed to water, natural weather or sunlight throughout the lifespan of the fabric.

It is the responsibility of our customers to inspect and test our products in order to meet all requirements for the planned application. The customer is responsible for the appropriate, safe and legal use of this product, furthermore at processing and handling it.

This warranty does NOT cover failure due to damage where inadequate thread or an insufficient number of seams has been used (i.e. single, double, triple seams)
It is the responsibility of the sewing company to ensure to meet all the requirements.

This warranty also does not apply to defects which are caused by improper sewing, mechanical cuts, fires, abrasion or similar. It also does not apply to boat sails.

In case of the above warranty Lenzing Plastics GmbH & Co KG will replace the affected amount of **Lenzing PROFILEN® sewing threads**.
